

HAREEM KHAN

AI and Automation Specialist | Growth and Business Development
Lahore, Pakistan | +92 324 4482051 | hareematique098@gmail.com | [Github](#) | [LinkedIn](#)

SUMMARY

AI and Automation Specialist with six years of experience across business development, growth marketing, and technical implementation. Skilled at building AI agents and automation systems that streamline business operations, while also driving client acquisition, pipeline growth, and go to market strategy. Comfortable operating across both technical and commercial functions, with a consistent record of identifying inefficiencies and building solutions that scale.

SKILLS

AI and Automation: AI agent development, workflow automation (n8n), prompt engineering, local LLM deployment (Ollama), Python scripting

Development: React.js, FastAPI, REST API design, Git and GitHub

Business Development and Growth: B2B outreach, pipeline management, lead qualification, growth strategy, product marketing

Analytics and Tools: SQL, Advanced Excel, Google Analytics, CRM tools, data visualization

EXPERIENCE

AI and Automation Engineer

June 2026 to August 2026

Cinnova International, Lahore, Pakistan (On Site)

- Built and deployed an automation workflow connecting Outlook to a Gemini AI agent, generating tailored email replies within 60 seconds while automatically filtering out irrelevant messages.
- Developed a company data extraction tool powered by a locally hosted LLM through Ollama, returning verified company details directly into Google Sheets for improved accuracy.
- Designed and built a full stack AI chatbot, Roselle, using React, FastAPI, and the Groq API, and delivered a role-based task management platform with authentication and a Kanban board.

Business Development, AI and Automation Specialist

December 2025 to June 2026

Highscore Company, Lahore, Pakistan (Hybrid, Contract)

- Led outbound business development across LinkedIn, Upwork, Reddit, and Discord, combining AI assisted prospecting with manual qualification and pipeline management through to close.
- Restructured targeting and outreach sequences using funnel data, increasing qualified lead volume by 35 percent, and cutting time to close by 25 percent.
- Partnered with the product team on positioning and messaging for a flagship product launch, contributing to a 20 percent lift in user engagement.

Business Developer and Digital Marketing Manager

February 2022 to November 2025

Zai Systems, Lahore, Pakistan (Hybrid)

- Grew the active client base by 25 percent over two years through structured B2B outreach, segmentation, and consistent follow up.
- Improved lead to client conversion by 30 percent and audience engagement by 40 percent by shifting campaign decisions from guesswork to data.
- Managed the company's full digital presence and built weekly performance dashboards that gave leadership clear visibility into revenue driving channels.

Content and Digital Marketing Executive

December 2019 to July 2021

Black Bird Packaging Company, Pakistan

- Took full ownership of content, graphic design, and social media for the brand, growing audience engagement by 45 percent within the first year.
- Managed the full campaign lifecycle from planning and scheduling through performance tracking and iteration.

Freelance Digital Strategy, Content and Analytics Consultant

2019 to Present

Upwork and Fiverr, Remote

- Delivered more than 100 projects for early-stage businesses across multiple markets, ranging from website copy to complete digital marketing plans.
- Maintained a consistent 5-star rating across platforms by tying every deliverable to a measurable business outcome.

EDUCATION

BS Financial Technology (FinTech), FAST NUCES, Lahore 2024 to 2028, CGPA 3.6

ICS Physics, Lahore College for Women University 2021 to 2023

Matriculation, Science, Crescent Model Higher Secondary School 2019 to 2021
